

Test Certificate

Equipment: AKV- - .. - -

Equipment no:

Client:

1 Leakage test

Testing medium:	Potable water	Temperature.:	
Working pressure:	0 bar (Atm.)	Testing time:	
Testing pressure:	1,0 bar	Pressure loss:	
Result:			

2 Volumetric test of graduation

	Volume of potable water took out (ml):	Volume measured with laboratory calibration pot (ml):	Weight measured with laboratory weighing machine (g):	Acceptance criteria (ml / g):
1	100	-		+/- 5%
2	200	-		+/- 5%
3	250	-		+/- 5%
Result:				

3 Visual Inspection

Activity	Result	Remarks
Overall name plate with right type and serial number is placed	<input type="checkbox"/> Y <input type="checkbox"/> N	-
Overall dimensions according datasheet	<input type="checkbox"/> Y <input type="checkbox"/> N	-
Flange material according type of calibration pot	<input type="checkbox"/> Y <input type="checkbox"/> N	-
Material certificate is attached 3.1. EN 10204	<input type="checkbox"/> Y <input type="checkbox"/> N	HTC:

4 Final tests result

Inspection Result:	Inspection Date:	Performed by: Name / Signature
